# Appendix: confirmed internship details

These details were assembled from the approved profile, application, cohort, program records, and the intern's pre-generation confirmation.

**MACHINE LEARNING CURRICULUM AND INTERNSHIP PLAN**

Build intelligence layers on messy data with a measurable quality bar and clear business impact.

**Data wrangling:** Handle real-world data shape issues: join constraints, anonymized rows, nested JSON, and aggregation strategy.

**Embeddings and clustering:** Group queries or pages by meaning and map clusters to content coverage gaps or cannibalization.

**Intent and opportunity modeling:** Classify intent beyond generic buckets and score where the biggest wins are hiding in existing data.

**Insight to action:** Connect model output to specific recommendations and define what counts as a non-obvious finding.
